Product information

The hardened steel cutting rollers with a lifetime warranty can easily cope with staples and paper clips and guarantee durability.

Stacks of paper can not only be shredded reliably and conveniently but also in a time-saving manner.

To empty the waste container, the housing top can be easily removed – a practical, recessed grip facilitates handling.

For continuous operation

The powerful motor ensures a high cutting capacity and reliable continuous operation (from HSM SECURIO AF150).

Nanogrip Technology

The document shredder with auto-feed has a specially developed intake and transport rollers which use Nanogrip Technology. This enables sheet after sheet to be pulled in securely from the stack of paper.

Useful dual function

During the autofeed stack processing, it is possible to manually feed paper at the same time.

Anti-paper jam function

The paper feed with overload protection reduces paper jams and sustains the high throughput of paper.

Automatic start/stop

The operation is very easy: the device starts automatically when fed paper and automatically stops after shredding is complete.

Mobile on castors

For convenience, there are castors on the document shredder so it is easy to move around (from HSM SECURIO AF150).
